

MSCI Launches MSCI ONE, an Integrated Cloud-based Platform for MSCI Content and Solutions

December 15, 2022

Helping investors turn data into insights through MSCI's differentiated content using Microsoft Cloud data and analytics solutions

NEW YORK--(BUSINESS WIRE)--Dec. 15, 2022-- MSCI Inc. (NYSE: MSCI), a leading provider of critical decision support tools and services for the global investment community, today announced the launch of [MSCI ONE](#), an open architecture technology platform built on Microsoft Azure that offers global institutional investors an integrated experience to access content across MSCI's portfolio of products and solutions.

MSCI ONE delivers next-generation capabilities in quantitative investment analytics through a modern, web-based experience that combines flexible distribution, cloud delivery, dashboards, and visualizations. Through this integrated platform, users can seamlessly navigate MSCI's robust analytics to help them quickly identify key insights, innovate rapidly, gain a broad view of investment risks and opportunities, and build investment portfolios that seek to deliver better strategic outcomes.

Henry Fernandez, Chairman and Chief Executive Officer at MSCI, said: "Today's investors must synthesize an enormous amount of data to achieve maximum value and power their investment decisions. With MSCI ONE, they will have easy access to a wide range of MSCI tools and solutions, which can help them turn data into insight. This platform represents MSCI's broader commitment to improving the client experience through transformational technology."

At launch, MSCI ONE will act as a single point of access for a dozen MSCI services, including [MSCI Risk Insights](#), Climate Solutions (including [Climate Lab](#)), and [Institutional Client-Designed Indexes](#) with Index Insights. The platform will also host MSCI's [Developer Community](#) and [Data Explorer](#), launched [earlier this year](#). Over time, MSCI ONE will incorporate many more of MSCI's tools and solutions in a single user experience.

Built on Microsoft Azure, MSCI ONE leverages Microsoft Power BI for live dashboards, interactive reports, charts, graphs, and other visualizations, as well as Azure Cosmos DB and Azure Data Lake for providing insights and data at scale by leveraging key capabilities for data integration, data warehousing, and big data analytics, enabling a seamless and modern experience for MSCI's clients.

Scott Guthrie, Executive Vice President, Cloud + AI at Microsoft, said: "Microsoft and MSCI share a deep commitment to accelerating innovation. Partnering with Microsoft, MSCI is leveraging cutting-edge innovations in cloud, natural language processing, data distribution and warehousing, and the end-to-end user experience. Whether investors need MSCI's analytical models, APIs, or user applications, the experiences delivered on MSCI ONE, built on Azure, empower them to choose their approach through an open architecture across MSCI's portfolio of content and solutions."

Jigar Thakkar, Chief Technology Officer and Head of Engineering at MSCI, said: "Since the launch of [Investment Solutions as a Service](#) in 2021, we have partnered with Microsoft to deliver 10 transformative solutions, culminating in this unique integrated platform MSCI ONE, which will grow to include many of MSCI's tools and solutions. We have rapidly accelerated the pace of innovation to serve demand for an efficient, open architecture technology platform that allows investors to solve challenges through a customized experience."

About MSCI Inc.

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data, and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios.
