Item 7.01. Regulation FD.

On October 31, 2014, management of MSCI Inc. (the “Company”) will meet with and provide to investors certain information in connection with the Company’s proposed issuance of approximately \$800 million aggregate principal amount of senior notes due 2024 (the “notes”) in a private offering that is exempt from the registration requirements of the Securities Act of 1933, as amended (the “Securities Act”).

The Company expects this information will include:

- (i) Adjusted EBITDA (which is defined as net income before income from discontinued operations, net of income taxes, provision for income taxes, other expense (income), net, depreciation and amortization of property, equipment and leasehold improvements, amortization of intangible assets, the lease exit charge and restructuring costs) for the years ended December 31, 2011, 2012 and 2013 prepared on a pro forma basis to give effect to the sale of Institutional Shareholder Services Inc. (“ISS”) and the Center for Financial Research and Analysis (“CFRA”) product line, which together made up the Company’s former Governance segment, as if it had occurred on December 31, 2010. This pro forma information does not purport to represent what the Company’s results of operations would have been if the sale of ISS and the CFRA product line had occurred as of the date indicated or what those results will be for future periods;
- (ii) Adjusted EBITDA for the twelve months ended September 30, 2014; and
- (iii) Cash EBITDA (which is defined as Adjusted EBITDA before recurring stock-based compensation) for the twelve months ended September 30, 2014.

Adjusted EBITDA and Cash EBITDA are both financial measures that are not prepared in accordance with generally accepted accounting principles (“GAAP”). Management of MSCI believes that these non-GAAP financial measures supplement the Company’s GAAP data by providing investors with additional information that enhances their overall understanding of the Company’s financial performance and the comparability of our operating results from period to period. However, these non-GAAP financial measures have important limitations as analytical tools, and are not meant to be considered in isolation or as substitutes for measures prepared in accordance with GAAP. In addition, use of these non-GAAP measures may not be comparable to similarly titled measures of other companies.

The following table provides a reconciliation of Adjusted EBITDA and Cash EBITDA to Net Income for the periods indicated:

(in thousands)	For the Years Ended			For the Twelve
